DESCRIPTION

The Ex-protection series selector switches are suitable for the use with Ex-d enclosures which can be installed in the industrial plants with potentially hazardous atmosphere classified as Zone 1 and Zone 2 for gases and Zone 21 and Zone 22 for combustible dusts. Typically utilized on the explosionproof enclosures for custom control applications. Installation is easy and secured. M.A.M. selector switches can operate rotary cam switches and rotary shaft of isolator, MCB, MCCB, etc. The handle is lockable where extensive safety is necessary. Regarding to enclosure wall thickness, two different lengths are available. Both selector switch body and the drive shaft are made in stainless steel to ensure operational reliability and a longer life time. Selector switches are available in 2 or 3 positions. Supplied fully with contact block.
